Spanuitul si indreptarea tesaturii se fac printr-o singura operatie

Deseori pot fi spanuite chiar stofe diferite in cadrul aceluasi span.

spanul este fixat cu suportii span

Croitul se face manual sau automat

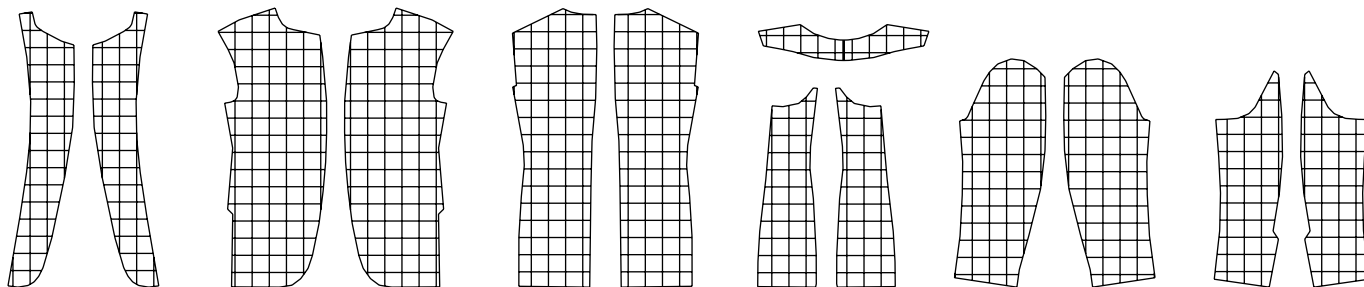

VEITH SYSTEM

VEITH SYSTEM - o metoda productiva pentru carouri

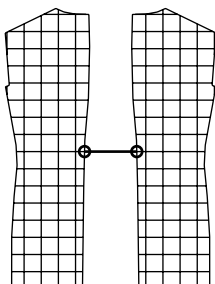

Exemplul unui sacou barbati arata posibilitatile mesel cu ace VEITH

Folosind masa cu ace pot fi realizate urmatoarele potriviri:

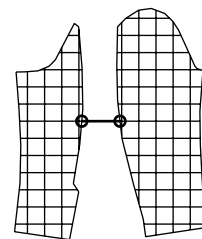

- ✓ reperetele din stanga si dreapta sunt simetrice

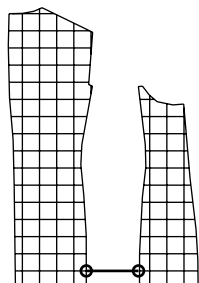

- ✓ potrivire la spate

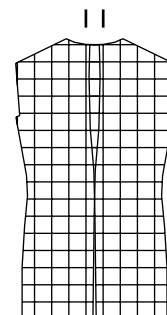

- ✓ potrivire maneca-clin maneca

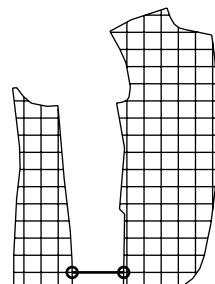

- ✓ potrivire spate-clin

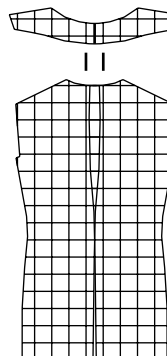

- ✓ Carou complet pe mijloc spate

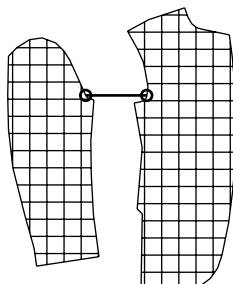

- ✓ potrivire clin-piept

- ✓ potrivire guler-spate

- ✓ potrivire maneca-piept

- ★ Toate criteriile enumerate anterior vor fi indeplinite chiar daca intr-un span se folosesc tesaturi cu raport diferit de carou.
- ★ Dupa spanuit, spanul poate fi croit imediat, manual sau automat; respanuitul este astfel eliminat.
